Operations and Logistics · Team Leader · 2.5 Years Remote

Summary

Operations professional with 7+ years of keeping people, routes, inventory, and data on track. Led a dispatch team of 12–15 drivers running about 350 stops a day. Spent 2.5 years fully remote reviewing medical records for missed care. Now runs an online retail business and builds its tools with AI.

Experience

Data Quality Reviewer · TapestryHealth · Remote

2024 – October 2026 · *Remote patient monitoring and chronic care for nursing homes*

- Reviewed nursing home residents' medical records to find overlooked conditions and gaps in treatment
- Screened patients for care program eligibility, such as chronic care management and remote patient monitoring
- Worked fully remote using Microsoft Teams and the company's in-house medical records system

Independent Shopper · Instacart · Contract

2022 – 2024

- Picked, packed, and delivered customer grocery orders on time
- Worked independently on a self-set schedule, with no supervisor on site

Driver Manager · Approved Toilet Rentals · McKees Rocks, PA

2019 – July 2022 · *Portable restroom company, acquired by United Site Services in July 2022*

- Led a team of 12–15 drivers and got every route out the door each day
- Planned routes and dispatched about 350 stops a day (15–25 per driver) for delivery, pickup, and cleaning of portable toilets and water units
- Managed inventory of units and supplies

Business

Founder · Absolute Discounts LLC · Remote
2025 – Present · *Online retail business, run and built with AI tools*

- Run the Agora, an online mall on Shopify that links 7 stores; relaunched the store in September 2026 and took its first order in a year
- Built Absolute Consulting, a website service for local shops: a landing page in the Agora plus 4 sample sites (barbershop, diner, pet groomer, contractor)
- Found why the sample sites loaded slowly on phones and fixed it: the barbershop's Google PageSpeed phone score went from 68 to 82–84, with desktop scores of 92–97
- Redesigned all 7 stores with AI (Claude) over 40+ planned work sessions, testing each change on a draft copy before it went live
- Building the Atrium, a back-office app that copies Shopify products, orders, and stock every 15 minutes, sends live alerts, and tracks the accounting
- Built Curious Minds in one weekend: a private learning app that turns a book into a course, with tests that need 90% to pass and a read-aloud voice
- Run every project the standard way: GitHub pull requests, automatic checks, and a written report after every work session (about 100 so far)

Skills

- **Operations:** routing, dispatching, scheduling, inventory, team leadership
- **Data:** medical record review, data quality checks, attention to detail
- **AI and tech:** Claude and Claude Code, building web apps with AI, Shopify, Supabase, Cloudflare, GitHub
- **Remote work:** Microsoft Teams, Google Workspace, working independently across tools

Education

- Business coursework · Kaplan University
- High school diploma · Washington High School
